BUSINESS OPERATIONS

Unit Standard Aligned: 119667, 119668, 119670 and 119671

In this short course we will help you to identify the composition of your new venture's industry/sector and its procurement systems. You will learn practical skills for how to best manage business operations, With the assistance from a business mentor we will work through how to produce a business plan for your new venture and administer contracts for it.

This course will also add value to entrepreneurs who are seeking to develop their entrepreneurial skills so that they can become more marketable for bigger contracts, including commercial and public sector contracts, for example the Department of Public Works programmes.

Course Curriculum

- Identifying and analysing the value chain within a selected industry or sector
- Identifying the business principles and processes within a selected sector or industry's environment
- Demonstrating an understanding of different procurement systems that may apply in specific sector/industry
